IP Cams is an application that combines two popular tools: IP Cams Manager Tool and IPC Softphone to a single package. The application comes with a simplified interface that consists of two main tabs: Main and Themes. Main tab The first tab consists of buttons that display the most relevant information about the camera you are currently dealing with. For instance, you can check the IP address, parameters for the camera stream (resolution, rate, type, quality, bitrate, GOP, encoding, profiles), number of video streams, number of cameras, scheduled settings, scheduling mode, i-Frame Interval time, time since last restart

and the type of encoding that is being used by the camera. Themes tab The second tab in IP Cams consists of three buttons to access themes and themes profiles. Each of these buttons leads to different themes with different appearance, parameters and menus. The icons you see in the application are 32x32.png, 16x16.png, 32x32@2x.png and 16x16@2x.png A tool that combines two popular tools: IPC Softphone and IPC Cams Manager Tool to a single package. What's New in the IPC Manager Tool?

PROS: Identifies devices that can be connected to Supports updates on devices Can set most of the stream parameters on devices Supports batch mode updates CONS: Slow setup Inconsistencies Doesn't appear to be intuitive 4.0 May 2019 screenshot 5 Overall Rating User Rating: Loading... Great piece

of software! Written by Maryam R. on 2018-11-06 13:04:48 It's really a great software that can help you configure all the devices on your network. I have been using it and found it really user-friendly. Provision ISR Manager is a really complete IP camera manager with the power of both simplicity and true control of your connected cameras. Moreover, it doesn't impose much on your time. Your IP camera connectivity instantly matches your workflow and changes with each day. The management of a single IP camera, in any network, is as easy as installing and using a free software and managing it in the cloud with the same free software is just too easy. You just install one software, and you are ready! Provision ISR

Manager's free version will get you started with IP camera connectivity and it's features. It has two versions, Trial and Paid Version. The monthly fee is $29 (one time fee with discount), and you don't need to enter credit card details or paypal account to sign up. You can try out the paid version and stop or continue after a month. When you have a paid account, you will have all features including scheduled reminders, vacation mode and many more features that you get with our paid version. How to Download Provision ISR Manager for Trial/Paid Version Follow the steps given in image, Go to the Provision ISR Manager main page Add New User Fully fill all the necessary details and provide the software license key as scanned from

your Provision ISR Manager. Download Provision ISR Manager for Paid Version Pay an amount and download the software. Software Licensing The Free version is licensed to you for 30 days and expires if you don't purchase the paid version. The Monthly Fee is $29, which is a one time payment and doesn't require any purchase details. You can cancel anytime
