The Elden Ring Online Action RPG is a game where the fate of the Elden Ring line lies in your hands and the realm of the Lands Between awaits you. A post-apocalyptic world has fallen, and the "star" that shines in the sky is a fallen star that has transformed into a meteor. The meteor crashes into an uninhabited area and incites a chain of events that is controlled by special "blades". A group of men arrive in the Lands Between and reclaim the "Star of the Sky" which was lost to them, and they are chosen as the agents of the Elden Ring—the heroine of the Elden Ring Game. You are one of the seven men. A Multilayered Story Where the Fate of the Elden Ring Line Lies in Your Hands The Lands Between are a post-apocalyptic world where the "Star of the Sky" that was once a fallen star has turned into a meteor. Mankind is struggling to survive. Seven Elden Lords fight on behalf of the Elden Ring, a magical girl who has appeared in this world. The members of the Elden Ring are you, the seven Elden Lords, and the seven Blades who stand by the Elden Ring. You have the power to change the destiny of the Lands Between through "blades". A Gorgeous World with Great Music A wide variety of field and dungeons for you to explore and fight. The music that plays in the background when you explore a field and battle a monster is the same music heard when traveling in vehicles or in a dungeon. All the music is arranged by experienced game composers and performers. There are many options when it comes to selecting weapons and equipment, so even when you start playing this game, the variety is immense. A Variety of Character Customization Options Since the game is set in a post-apocalyptic world, it is easy to create characters with a strong impression in both appearance and battle attitude. Chapter 01 Story The fall of the Elden Tree. A warm ocean breeze gently blows upon a green forest, and the scent of jasmine floats up from the ground. A young boy stumbles forward, as if drunk, drops to one knee, and then falls to the ground. Although he is only ten years old, his face is calm and resolute. His clothes are simple, and his figure is that of a peasant. Although the boy's hairstyle has yet to assume its adult shape, he looks to be the same age as the Elden Tree. His flawless, youthful skin is also a bit pink. He is lying on the ground. A powerful sword hung from a short crimson branch

is placed on the ground beside him. "Huh?" The boy's right hand passes in front of his eyes as if in a deep sleep. The boy is sound asleep, and in the blink of an eye, his vision returns. His left hand firmly grips the hilt of the short sword, and he rises to his feet. The boy's body is sweaty. The weapon dangling from his left hand is heavy, and his legs feel numb. "How long has it been since we began our journey?" "W-Wake up." He looked around the green forest, and it was as if he had come into his senses. "What's wrong? Everyone's okay, right?" "Y-Yeah, they're fine." In fact, the boy's surroundings were pitch dark. No matter how much the boy tried to rub his eyes, he could not see his surroundings. Biting down on his lower lip, he lifted his sword. Even if he kept his eyes shut, he could still feel the pressure of the sword in his hand. Just what kind of dangers were lurking here? What kind of monster? The boy also had no idea where he was. In the end, no matter what kind of dangerous situation or monster the boy might run into, he would certainly protect the others no matter what. "Where am I?" The boy's voice trembled, and he shouted. "I guess I was sleeping while we were running?" "Don't panic, I'll be sure to wake everyone up." "Don't worry

I personally have a few favorite games on my PC as well. I love playing sports games, puzzle games, and RPGs. I especially love those big roleplaying games with more than ten hours of playtime that I can take on long journeys with. Last time I was reading a Role Playing Game book. This one had a fantasy theme and it also had the characters that were representing the evolution of humanity. So I figured that it was going to be a game that I'd be really excited to play. Well, when I opened the game up I was a bit disappointed. It wasn't a game that I'd want to play. There were too many details that I didn't really get. I'd like to see it all put into a game that I can pick up and play and really get into it. I then checked out the book that had this game in it and found that the sections between the

chapters (game sections) were filled with drawings of people. I read through them and I was surprised to see that the people on the drawings were stylized really well. I got the idea that the game was probably going to be a game that was about a character's life instead of about a character becoming stronger and learning new things. That was kind of weird to me, but it was kind of cool. So once I finally started playing the game (after a few hours of reading) I felt more than a little disappointed. When I played the game it was like reading a novel with way too many characters. The things that I enjoyed reading in the book were almost totally missing in this game. I didn't have a kind of king or some type of knight that was calling for me. Nor did I have a court. I didn't have a king that had a special place in his brain where people could talk to him. It was just people talking with each other in between the pages. What I didn't understand was how this game could be in a book (it was supposed to be a role-playing game). The reason
