I want to change my launcher on Ubuntu 18.10 but I can't find it. I searched the Internet, googled, but I can't find any solution. How can I do that? Is it possible to change the icon-size of the launcher? Can I customize the applications under the panel? It is preinstalled, so you can install it now using: sudo apt install gnome-tweak-tool Opening it and navigating to Appearance and Tweaking will bring up all the configuration options you are after.
