DCS: Normandy 1944, the new and next generation sim for PC Windows, is the War Thunder classic plane simulator. DCS: Normandy 1944 brings you the chance to explore Europe at the beginning of World War II from the only WWII aerial combat simulator, which combines air combat, large scale re-enactment battles, and many additional features to create a truly immersive war experience. "Normandy 1944" the product of the combined efforts of the development team of Great Powers of War and the DarkDesert studio, will offer high quality and unprecedented gameplay including fully customizable aircraft, several game modes, campaigns and numerous free aircraft and systems. Engine Features: "This is the ultimate WWII air sim! If you like flying real warplanes and getting into dog fights, and sinking heavy ships all in one world, then this is for you." (A X Demo) The new and next generation World War II plane simulation game, combines realistic combat with large scale land and sea combat. DCS: Normandy 1944 boasts new and improved features to make your game experience even more exciting. 16 New Aircraft: In DCS: Normandy 1944 you will be able to fly in 16 new aircraft including: P-51D Mustang, B-17D Flying Fortress, P-38J Lightning, F4F Wildcat, F6F Hellcat, Douglas A-26B/C Invader, F7F Tigercat, Yak-9, Yak-3, Yak-7, P-47D Thunderbolt, A6M Zero, F-15, Beaufort and RoRo. Air-to-Air Combat: Air combat has been re-done and now features dynamic resolution scaling and improved visuals. Dogfights are a lot more fun now. Realistic Mission-Based Campaigns: Play through campaigns that are based on actual missions flown during the war. Changing weather, time of day, enemy ships, flak, AAA, and even weather conditions affect the combat and your mission. Land and Sea Battles: The coast of Normandy has always been one of the most attractive locations for the military. Many real life WWII land and sea battles have taken place in the area. DCS: Normandy 1944 includes combat missions in the bocage, artificial reefs, and the port of Cherbourg. 100+ Mission: Play over 100 unique missions including campaigns, skirmishes, carrier battles, air-sea battles, and more. Different missions will give you experience points, currency, and experience in flying

Heroes Rule! is a massive expansion to the 5th Edition rules for building and ruling a domain of your very own. Ultimate Rulership provides rules to provide guidelines to the player (and GM) for building and ruling a domain of your very own. The rules are designed for both more detailed level of character building and for the players to be able to quickly set a city up for play. NOTE: Heroes Rule! requires both the 5th Edition core rulebook and Ultimate Rulership. Ultimate Rulership includes the 5E Compatible ruleset. Ultimate Rulership is not compatible with any previous version of the 5E system. Ultimate Rulership provides a new ruleset for building and ruling a domain of your very own. In Ultimate Rulership, you will set up your own domain, just like in the real world. Your domain needs to be planned, designed, and ruled. It will be a dangerous place for those who are not prepared and quick on their feet! This expansion will also include over 60 optional cultural traits for your domain. They are well defined and give the GM options as well as plenty of inspiration for a unique setting. Here are just some of the features of Ultimate Rulership: Over 40 new city building rules as well as classes for the city Over 60 New optional cultural traits 5 new Edicts, each based on a "ruling ideology" 11 new Admonitions Over 70 new Settlement Attributes 42 new Attribute categories 2 new generic ranks Fantasy Grounds Support Lots of extremely detailed world info and guidelines to build the domain into what you need it to be. Community Resources: For those who want to read more about the specifics of the core rules from the 5E system For those who want to read more about the specifics of the cultural traits For those who want to read more about the specifics of the dominion rules NOTE: The 5E Compatible ruleset contains rules that are not part of the core ruleset and require a subscription to Ultimate Rulership. Solar System Conflict is a space survival game with in-game events and achievements, where the players fight for their survival and try to escape from an unknown solar system. The players are scattered over four different planets, each with different biomes and other features, weather and seasonal shifts, which adds to the game experience. The Solar System Conflict is a multiplayer, online, space survival game, where the players must cooperate to build and craft the necessities for survival and explore, fight and conquer new planets. Not only do the players have to work to survive, they also need to craft machines and robots to help the rest of the players survive in this new Solar System. Solar System Conflict is a science fiction based game, where the main goal is to survive and explore this new solar system. The game takes place in an open space environment, with four different planets, in addition to a space station which the players can visit from a space ship. The planets are all different, with their own climate, topography, weather and season changes. The Solar System Conflict started out as a singleplayer survival game, which is based on the game concept. But, in order for this game to become a really awesome space survival game, I needed some help. So I contacted a friend and he began coding the mechanics and AI for the game. This, in turn, allowed me to focus on graphics, animation and music. However, this is just one aspect of game development, since I still have a lot to add to this game. Finally, after years of hard work and countless nights when I couldn't sleep, I am proud to present to you a new game: Solar System Conflict: The Game. Solar System Conflict is a multiplayer space survival game in which a colony of humans is stranded in a recently discovered solar system, in search of a way back to Earth.Build, Craft, Discover, and Survive: Travel through space, explore the solar system and fight for your survival by crafting and constructing your own buildings, space stations and spaceships. Upgrade and adapt your spaceships from single pilot fighters to large motherships. Fight in huge space battles (inside larger ships and out in space) as well as on land, with other players or your own robot drones.Current Features: Build your own houses and facilities, stone castles, wooden huts and much more (There are many different materials you can use to build your stuff). Harvest resources and craft equipment and cook food. Dynamic Day
