My problem is that the code that I have written to do this doesn't work properly with the sample data I have been given. I have created a class called Course, and the classes below are contained within this class. In Course the following are the attributes of the course: -Name -CourseType (e.g. English) -YearLevel (e.g. Year7) -Semester (e.g. Autumn) -TimePeriod (e.g. 4W4) -TimeSlot (e.
