
DayZ 1.7.4.4 Download \\\FREE\\\

dayz mod for arma 3 is a pure survival experience, you have to survive and you have to survive alone. you can scavenge, collect resources and build shelter to survive but you can't use weapons in the game. dayz has a very user-friendly interface and works just like any other mmo. the server browser window is available from the login screen. players can choose a game type (pvp or pve), they can choose a server and the server list is populated with maps which are divided into different game modes. there is also a world map where players can join an ongoing game and contribute to the world economy. dayz is an open-world survival horror game in which players struggle to survive and even thrive in a zombie-infested post-apocalyptic world. starting with only the barest minimum of supplies you must explore the desolate post-soviet nation of chernarus. the disease-crazed zombies roaming the landscape are dangerous but your fellow survivors might be equally deadly -- other gamers may bash your head in just to steal your tins of beans and bottles of water. dayz is currently in early alpha and we see a lot of work ahead of us in order to make it the true authentic multiplayer experience we want it to be. current version is including only small subset of game mechanics and serves mostly as test bed with core technology that should serve as basis for future additions and improvements. currently planned key future features are: searching for nitrado, we can find many fantastic dayz servers to join! once you have found your or your friends server to join, press the play button next to that and click join the server and play to start connecting to that dayz server. if the server requires mods and your dayz game does not yet have them installed, the dayz launcher will offer to fix this and install them for you. click ok to continue with the mod installations. mod installations can take some time to install depending on the number of mods and your internet speed.
